Work Experiences

IT Corner Limited

Full Stack (Node.js, React.js, React native), Feb 2018 – Present

• An agency where financial, e-commerce, CRM, and CMS applications are developing. This agency is located in Dhaka, Bangladesh. We use to make most of the software of React js, Node js, React Native, Next js, Laravel . Here we make ensure product quality and bug-free products. Basically, IT Corner is PHP based Software Company. More than 2K consumers using our products and services from the whole world. We deliver products before the deadline ensuring quality and fulfilling client requirements. We achieve client satisfaction and trust by delivering the best quality products.

Upwork and Fiverr (Marketplace)

PHP and Wordpress Developer, May 2014 – JAN 2018

• I worked for a global-based client. They had various types of requirements-based projects. During this time worked in e-commerce, Real estate sites, Hotel booking management, Tour management, and many other blog sites. All of the software is made by PHP and WordPress. I was a top-rated freelancer at Upwork. I achieve avg 95% satisfaction and good feedback from the client. The pleasing thing is most of the clients hire me again and again. Because they got the best work before the deadline.
